5. DEĞERLENDİRME / EVALUATION

5.1. PROGRAM ÇIKTILARI ÖLÇÜM SONUÇLARININ DEĞERLENDİRİLMESİ / EVALUATION OF PROGRAM OUTCOMES MEASUREMENT RESULTS

In all the courses evaluated during both the fall and spring semesters in 2025-2026 academic year, the targeted threshold values for achieving program outcomes are met. In the previous academic year, four courses were below the threshold. We consulted the coordinator of these courses last year and tried to develop an appropriate solution for each course (see the previous year's report for details). This year's results indicate that the solutions have worked.

5.2. EĞİTİM AMAÇLARININ DEĞERLENDİRİLMESİ / EVALUATION OF EDUCATIONAL OBJECTIVES

In this year, for the second time, we had a very fruitful meeting with both the undergraduate and graduate student members of our QME committee. During this meeting we received valuable feedback regarding the students' experiences with a wide range of courses offered in our curriculum. We will be reviewing these points and suggestions in our faculty committees.

- 1) At the undergraduate level, there is a request to include regression tables and understanding statistical significance, etc. as preparation for upper-level coursework and senior projects. These techniques are discussed in the Statistics for Social Sciences course, but perhaps they can be emphasized more. It is also noted that some methods and data analysis courses are needed at the senior level.
- 2) There were some concerns about the balance between lecture-based and discussion-based teaching. At the undergraduate level, students note that slide-focused instruction limits effective engagement with course material, and that more space for in-class discussion is needed. However, the fourth-year representative added that participation grading based on speaking in class can disadvantage introverted students, especially in large sections. It seems that the concerns of the students about these issues are not uniform and there are conflicting demands. We need to inquire further into these student concerns.

Further suggestions made during the meeting:

- More political theory and social/cultural studies content should be included in the POLS Talk series, and students should be encouraged to suggest and contribute to speaker invitations.
- CS 121 and CS 125 are spaced a year apart, creating continuity problems; adding R or Excel/macro instruction alongside Python is suggested as more directly useful for research and professional life.
- The administrative law course is too compressed in one semester; extending it to two semesters (as with constitutional law) is recommended.
- Open-book and cheat-sheet exam formats are endorsed as more pedagogically effective than memorization-based exams, and may also reduce cheating.

- A request to add a POLS-coded version of “Professional Communication” (currently COMD 358).
- A request for a dedicated course on critical thinking.
- Political economy courses can be added to the curriculum.

There are also suggestions made in last year’s meeting that need to be considered further.

- It was noted that some of the topics covered in HCIV courses overlap with certain "Humanities Electives," and students were advised to examine the content of these courses and find other courses that could be added to "Humanities Electives."
- The possibilities of advancing the SOC101 course to a more advanced level were discussed, and it was suggested to consider offering a SOC102 course for POLS students.
- Students indicated that it would be beneficial to include case studies related to social sciences alongside theoretical topics in the MATH 264 course.

Measures taken in our department already aim at addressing some of these concerns.

- We are currently searching for new faculty members in Political Theory and in Turkish Politics.
- We have also completed hiring a Public Policy scholar.
- These new hirings will be beneficial in enriching our course pool. We have also opened new courses Political Sociology, Politics of Science and Technology, as well as Experiments in Social Sciences which will also address some of the concerns mentioned above.
- We have also expanded the range of our POLS TALKS significantly and will continue to do so, to include all subdisciplines of our department.

We shall continue to review these important topics in the departmental committees in the coming months.
